

قسم الأمراض الجلدية والتناسلية والذكورة

توصيف برنامج (ماجستيرالأمراض الجلدية والتناسلية والذكورة) (عام 2014-2013)

A. Basic information

أ. معلومات أساسية:

- 1- Name of the program: Master of Dermatology and Andrology
- 2- Nature of the program: Multiple
- **3- Departments responsible:**
 - Dermatology and Andrology Department
 - Physiology, Biochemistry, Microbiology and immunology, Pathology, Psychiatry, Internal medicine and General surgery Departments.
- 4- Coordinator: Prof. Adel Ali
- 5- Internal evaluation of program specification: Prof. Eman Sanad
- 6- External evaluation of program specification: Prof. Dr. Mohammed Abd Al monem Abd Al Aal (Professor of Dermatology and Andrology, Al Azhar University)
- 7- Date of approval of program specification:
 - Department council: September, 2013
 - Faculty council: 15/9/2013

Professional information

ب. معلومات متخصصة:
 1 - الأهداف العامة للبرنامج:

1- Program aims:

The overall aims of the program are:

- 1. Apply the basics and fundamentals of scientific research effectively and using its different tools.
- 2. **Apply** the Analytical approach in the field of Dermatology and Andrology.

- 3. **Apply** recent scientific knowledge essential for the mastery of practice of Dermatology and Andrology according to the international standards and its integration with the related sciences in the professional practice
- 4. **Show** awareness of the ongoing problems and the modern visions in the field of Dermatology and Andrology.
- 5. **Identify** dermatological and andrological problems and find out solutions.
- 6. **Perform** an appropriate scale of dermatological and andrological skills necessary for diagnosis and management of patients effectively, and use the appropriate technological means to serve the professional practice.
- 7. **Communicate** with other colleagues effectively and to be able to lead a team work.
- 8. **Take** professional decisions in different dermatological and andrological problems.
- 9. **Use** the available resources in the best way in order to achieve the highest benefit and to preserve these resources.
- 10. **Show** awareness of his role in community development and environmental conservation in the light of the global and regional variables.
- 11. **Behave** in a manner reflecting the commitment to integrity and credibility of the profession and the commitment to the rules of this sensitive specialty.
- 12. **Develop** him academically and professionally with maintenance of learning abilities necessary for continuous medical education.

2 - المخرجات التعليمية المستهدفة من البرنامج:

2-Intended Learning Outcomes (ILOS):

2.a. Knowledge and Understanding

2.أ - المعرفة والفهم:

On successful completion of the program, the graduate will be able to:

2.a.1 Discuss basic physiological, biochemical, microbiological, histopathological, physical, psychological, medical and surgical facts, theories of dermatology and andrology and the related subjects/ fields

- **2.a.2 Underatand** the mutual relation between dermatology and andrology practice and effects on environment.
- **2.a.3** Know the scientific advances in the field of dermatology, and andrology and related fields.
- **2.a.4 Identify** the principles and fundamentals of ethics and legal aspects of professional practice in the field of Dermatology and Andrology based upon social, psychological, medical and surgical understanding.
- **2.a.5 Describe** the principles , fundamentals and applications of quality of professional practice in the field of Dermatology and Andrology
- **2.a.6 Know** basics and ethics of scientific research in the field of Dermatology and Andrology
- **2.a.7 Highlight** methods of promoting health and preventing illness in Dermatology & Andrology based on biochemical, microbiological, histopathological, physical, medical and surgical knowledge.
- **2.a.8 Identify** the impact of dermatologic and andrologic problems on quality of life, regarding health, social, psychological and financial conditions, fitness to work and personal relationships.

2.b. Intellectual Skills:

2. ب ـ القدرات الذهنية : ـ

On successful completion of the program, the graduate will be able to:

- **2.b.1 Interpret**, analyze & evaluate the physiological, biochemical, microbiological, histopathological, physical, psychological, medical, surgical information to solve Dermatological and Andrological problems
- **2.b.2 Solve** some Dermatological and Andrological problems that do not conform to classic data (incomplete data) with guidance of histopathological, biochemical and microbiological information.
- **2.b.3 Integrate** different biochemical, histopathological, medical and microbiological information to solve Dermatological and Andrological problems
- **2.b.4** Conduct a scientific research &/Or write scientific thesis in a systematic approach about a dermatological or andrological problem.

- **2.b.5 Evaluate** risks imposed during professional Dermatology and Andrology practice including internal medical problems, surgical procedures, collecting samples for biochemical and microbiological examination and using different therapeutic modalities, medical or surgical or physical and phototheraputic modalities.
- **2.b.6 Plan** to improve performance in the field of Dermatology and Andrology based on Physiological, biochemical, microbiological, histopathological, physical, psychological, medical and surgical background.
- **2.b.7 Make** professional decisions in different Dermatological and Andrological situations with guidance of Physiological, biochemical, microbiological, histopathological, physical, psychological, medical, surgical information.
- **2.b.8 Manage** Scientific discussion based on scientific evidences and proofs about Dermatology & Andrology topics.
- **2.b.9** Criticize researches related to Dermatology and Andrology.

2.c. Practical and professional Skills:

2.ج. مهارات مهنية وعملية:

On successful completion of the program, the graduate will be able to:

- **2.c.1. Perform** efficiently microbiological, histopathological and surgical basic and advanced professional procedural skills necessary in diagnosing and treating dermatological or andrological problems and direct the patient to the most suitable option in the field of Dermatology and Andrology
- **2.c.2. Write** and evaluate biochemical, histopathological, microbiological, medical and surgical reports about different dermatological and andrological problems.
- **2.c.3. Evaluate** methods and tools existing in the area of Dermatology and Andrology
- **2.c.4. Apply** sterile, safe techniques and infection control guidelines according to International principles in microbiological, medical and surgical procedures in dermatology and andrology practice.

2.c.5. Collect information systematically, using questions that are appropriately focused toward assessment of the dermatologic or andrologic problems based on deep understanding of normal skin physiology, pathological changes and psychiatric background.

2.د . مهارات عامة و منتقلة:

2.d. General and transferable skills:-

By the end of the program the graduate should be able to:

- **2.***d.***1 Communicate** with professors and colleagues effectively using different methods.
- **2.d.2** Use information technology to improve his/her Dermatology & Andrology practice
- **2.d.3 Practice** self-appraisal and determines his learning needs in Dermatology & Andrology practice
- **2.d.4** Use different sources of information to obtain data in Dermatology & Andrology practice
- **2.d.5 Share** in determination of standards for evaluation of others in Dermatology & Andrology practice
- **2.d.6** Work in a team and work as team leader in situations comparable to his work level in Dermatology & Andrology practice
- **2.d.7 Manage** time effectively in managing Dermatology & Andrology situations.
- **2.d.8 Learn** independently and seek continuous learning related to Dermatology & Andrology
- **2.d.9 Demonstrate** respect to all persons irrespective of their socio-cultural or religious status in Dermatology & Andrology practice.
- **2.d.10 Conduct** patient interview with patience, attentive listening and respect in Dermatology & Andrology practice.

3- Academic Standards

3 - المعايير الأكاديمية للبرنامج:

a. Academic Standards of Master Program of Dermatology and Andrology, approved in department June, 2013, and in faculty council June, 2013. (1

Reference standards (benchmarks)

المعايير القياسية لبرامج الدراسات العليا (درجة الماجستير)الصادرة عن الهيئة القومية لجودة (2009)

Academic reference standards (ARS), Master Program (March 2009)

, which were issued by the National Authority for Quality Assurance & Accreditation of Education NAQAAE (2

(5): Program structure and contents

5 - هيكل ومكونات البرنامج:

- a) Program duration: 4 semesters (2 years)
- **1**st part: One Semester (6 months).
- **2**nd part: Two Semester (1 year).
- **Thesis:** One Semester (at least 6months after 2nd part).

b) Program structure

- Total hours of program: 48 credit hours
- **Theoretical:** 20 credit hours
- **Practical:** 11 credit hour
- **Thesis:** 6 hours
- University and faculty requirements: 6 hours
- **Logbook:** 5 hours

ج- مستويات ومقررات البرنامج:

الساعات المعتمدة	الكود	المقرر	البند
6 ساعات	Univ 601	للجامعة والكلية	متطلبات
8 ساعات		يشمل الأتى :	
0.5	Derm 601	فسيولوجيا	
2	Derm 602	كيمياء حيوية وعلم وراثة	
1.5	Derm 603	ميكربيولوجيا وعلم مناعة	
2	Derm 604	هستوباثولوجيا	جزء أول
	Derm 605	مقرر نظرى فى علاج الأمراض الجلدية والتناسلية بالأشعة والكهرباء الطبية والليزر والموجات فوق الصوتية	35 / 5.
1	Derm 606	طب نفسى (فيما يتعلق بالأمراض الجلدية والتناسلية)	
23 ساعة		يشمل الأتى	
2.5 ساعة	Derm 607	باطنة عامة	
2.5 ساعة	Derm 608	جراحة عامة	جزء ثانی
9 ساعات	Derm 609	أمراض جلدية	
9 ساعات	Derm 610	أمراض تناسلية وذكورة	
	حضور عرض الحالات المرضية بالعيادات الخارجية وحضور المرور علي حالات القسم الداخلي	حضور مناقشة رسائل ومؤتمرات والاجتماع العلمي الدوري للقسم	كر اسة الأنشطة
6 ساعات			رسالة ماجستير
48 ساعة			الإجمالي

First part (one semester):

a- Compulsory courses:

Course Title	Course Code	NO. o	f Teaching hours p	er week	Total teaching
		Theoretical	practical	Total/W	hours/ One Semester
فسيولوجيا	Derm 601	1	-	1	15
كيمياء حيوية وعلم وراثة	Derm 602	2	-	2	30
ميكربيولوجيا وعلم مناعة	Derm 603	1	1.5	2.5	37.5
هستوباثولوجيا	Derm 604	1.5	1.5	3	45
علاج الأمراض الجلدية	Derm 605	1	-	1	15
والتناسلية بالأشعة والكهرباء الطبية والليزر والموجات فوق الصوتية					
طب نفسى (فيما يتعلق الامراض الجلدية والتناسلية	Derm 606	1	-	1	15
Total:		7.5	3	10.5	157.5 hours

b- Elective courses: none

c- Selective: none

Second part (2 semesters):

a- Compulsory courses.

Course Title	Course Code	NO. of Theoretical	Teaching hours p	er week Total/ Week	Total teaching hours / 2 semesters
باطنة عامة	Derm 607	1.5	3	4.5	135
جراحة عامة	Derm 608	1.5	3	4.5	135
أمر اض جلدية	Derm 609	5	12	17	510
أمراض تناسلية وذكورة	Derm 610	5	12	17	510
Total:		13	30	43	1290

b- Elective courses: none

c- Selective: none

6- محتويات المقرات (راجع توصيف المقررات) ملحق 6

- كود أو رقم المقرر :
 - اسم المقرر:
- المحتويات: (طبقاً لما هو مذكور في اللائحة)

Program admission requirements

7 ـ متطلبات الإلتحاق بالبرنامج:

مادة (4): **يشترط في قيد الطالب لدرجة الماجستير: (1)

- أ- أن يكون حاصلا على درجة البكالوريوس في الطب والجراحة من احدى جامعات ج.م.ع أو على درجة معادلة لها من معهد علمي معترف به من الجامعة بتقدير جيد على الأقل.
- ب- يسمح للحاصل على الدبلوم وفقا لنظام هذه اللائحة وبتقدير جيد على الأقل بتسجيل رسالة لاستكمال درجة الماجستير بشرط ألا يكون قد مر أكثر من ثلاث سنوات على تاريخ حصوله على درجة الدبلوم وبغض النظر على تقديره في درجة البكالوريوس.
 - ت- يسمح للحاصل على الدبلوم وعلى خلاف لنظام هذه اللائحة أن يسجل لدرجة الماجستير بشرط أن يكون تقديره في الدبلوم لا يقل عن جيد وبغض النظر عن تقديره في البكالوريوس.
 - (2) أن يكون قد أمضى السنة التدريبية أو ما يعادلها (سنة الامتياز)
 - (3) أن يتفرغ للدراسة لمدة سنة على الأقل في الجزء الثاني (فصلين دراسيين)

مادة (5): يكون التقدم للقيد لدرجة الماجستير مرة واحدة في السنة خلال شهري يوليو وأغسطس من كل عام. ,تبدأ الدراسة لدرجة الماجستير في شهر أكتوبر من كل عام.

8 - القواعد المنظمة لإستكمال البرنامج:

مادة (6): تتولى لجنة الدراسات العليا بالكلية عن طريق لجنة تشكل لكل تخصص من أعضاء مجلس القسم التابع له المادة والقسم المانح للدرجة وضع البرنامج التفصيلي للمقررات في حدود الساعات المعتمدة الواردة باللائحة وعند الاختلاف يتم الاسترشاد بمقررات جامعة القاهرة ومقررات الشهادات العالمية الاوربية والامريكية يعتمدها مجالس الأقسام ثم يقرها مجلس الكلية وتشمل هذه الساعات محاضرات نظرية ودروس عملية وتدريب اكلينيكي ومحاضرات وندوات مشتركة.

مادة (7): يشترط في الطالب لنيل درجة ماجستير التخصص في أحد الفروع الاكلينيكية والعلوم الطبية الأساسية:

- أ- حضور المقررات الدراسية والتدريبات الاكلينيكية والعملية والمعملية بصفة مرضية طبقا للساعات المعتمدة.
- ب- أن يقوم بالعمل كطبيب مقيم أصلى أو زائر لمدة سنة على الأقل في قسم التخصص بالنسبة للعلوم الاكلينيكية.
 - ت- أن ينجح في امتحان القسمين الأول والثاني.
- ث- اجتياز الطلب لثلاث دورات في الحاسب الآلي (دورة في مقدمة الحاسب دورة تدريبية متوسطة دورة في تطبيقات الحاسب الآلي) وذلك قبل مناقشة الرسالة.
 - ج- اجتياز اختبار التويفل بمستوى لايقل عن 400 وحدة وذلك قبل مناقشة الرسالة.

أن يقوم باعداد بحث في موضوع تقره الجامعة بعد موافقة مجلس القسم ومجلس الكلية ينتهي باعداد رسالة تقبلها لجنة التحكيم.

8 - Students Assessment Methods

لبرنامج ماجيستير الأمراض الجلدية والتناسلية والذكورة

1- Graduate Attributes

By the end of Master of Dermatology and Andrology program, the graduate should be capable of:

- 1. **Applying** the principles and methodologies of scientific research and using its different tools with excellency.
- 2. **Applying** the analytical approach in the field of Dermatology and Andrology.
- 3. **Applying** Dermatology and Andrology knowledge and its integration with the related sciences in the professional practice
- 4. **Showing** awareness of the ongoing problems and the modern visions in the field of Dermatology and Andrology.
- 5. **Identify** dermatological and andrological problems and proposing suitable solutions.
- 6. **Performing** a significant scale of dermatological and andrological skills and using the technological means to serve the professional practice.
- 7. **Communicating** with others effectively and leading a team work.
- 8. **Making** professional decisions in different dermatological and andrological contexts.
- 9. **Using** the available resources in the best way in order to achieve the maximum benefit and to preserve these resources.
- 10. **Showing** awareness of his role in community development and environmental preservation in the light of the global and regional variables.
- 11. **Behaving** in a manner reflecting the commitment to integrity and credibility of the profession and the commitment to the rules of this sensitive specialty.
- 12. **Develop** him academically and professionally with maintenance of learning abilities.

2- Academic standards

2-1 Knowledge and understanding

On successful completion of the program, the graduate should know and understand:

- 1. The concepts and fundmentals of Dermatology and Andrology and the related subjects/ fields
- 2. The mutual relation between dermatology and andrology practice and effects on environment
- 3. The scientific advances in the field of Dermatology and Andrology
- 4. The principles and fundamentals of ethics and legal aspects of professional practice in the field of Dermatology and Andrology .
- 5. The principles, fundamentals and applications of quality of professional practice in the field of Dermatology and Andrology
- 6. The basics and ethics of scientific research in the field of Dermatology and Andrology
- 7. The methods of promoting health and preventing illness in Dermatology & Andrology practice.
- 8. The impact of skin, sexual and fertility problems on quality of life.

2-2 Intellectual skills

On successful completion of the program, the graduate should be capable of:

- 1. **Solving** Dermatological, and Andrological problems via analysis & evaluation of the available information
- 2. **Solving** some Dermatological and Andrological problems in the absence of complete data.
- 3. **Integrating** different knowledge to solve Dermatological and Andrological problems.
- 4. **Conducting** a scientific research &/Or writing a scientific study in systematic approach about a dermatological or andrological problem.
- 5. **Evaluating** risks imposed during professional Dermatology and Andrology practice.
- **6.** Planning to improve performance in the field of Dermatology and Andrology.
- 7. **Making** professional decisions in different Dermatological and Andrological situations.
- 8. **Managing** scientific discussion based on scientific evidences and proofs about Dermatology & Andrology topics.
- **9. Criticizing** researches related to Dermatology and Andrology.

2-3 Practical and professional skills

On successful completion of the program, the graduate should be capable of:

1. Performing basic and advanced professional skills in the field of Dermatology and Andrology with proficiency.

- 2. **Writing** and evaluating medical reports about different dermatological and andrological problems.
- 3. **Evaluating** established methods and tools existing in the area of Dermatology and Andrology
- 4. **Applying** sterile, safe techniques and infection control guidelines in dermatology and andrology practice.
- **5. Collecting** information systematically, using questions that are appropriately focused toward assessment of the dermatologic or andrologic problems.

2-4 General and transferable skills

On successful completion of the program, the graduate should be capable of:

- 1. **Communicating** effectively using different methods.
- 2. Using information technology to improve his/her Dermatology & Andrology practice.
- 3. **Practicing** self-appraisal and determining the learning needs in Dermatology & Andrology practice
- 4. Using different sources of information to obtain data in Dermatology & Andrology practice
- 5. **Sharing** in determination of standards for evaluation of others in Dermatology & Andrology practice
- 6. **Working** in a team or as a team leader in various situations.
- 7. **Managing** time effectively in managing Dermatology & Andrology sitiuations
- 8. **Learning** independently and seek continuous learning related to Dermatology & Andrology
- 9. **Demonstrating** respect to all patients irrespective of their socio-cultural or religious status in Dermatology & Andrology practice.
- 10. **Conducting** patient interview with patience, attentive listening and respect in Dermatology, & Andrology practice.

اعتماد مجلس القسم بتاريخ: June, 2013

رئيس مجلس القسم أ.د/خالد محيى الدين منيب حسين

> اعتماد مجلس الكلية 16/6/2013

ملحق 2: المعايير القياسية للدراسات العليا 2009 الصادرة عن الهيئة القومية لضمان جودة التعليم والاعتماد

برامج ماجيستير الدراسات العليا

موصفات الخريج

خريج برنامج الماجستير في أي تخصص يجب أن يكون قادرا على:

- 1.1 إجادة تطبيق أساسيات ومنهجيات البحث العلمي واستخدام أدواته المختلفة
 - 2. اتطبيق المنهج التحليلي واستخدامه في مجال التخصص
- 1.3 تطبيق المعارف المتخصصة ودمجها مع المعارف ذات العلاقة في مماسته المهنية
 - 4. 1 إظهار وعيا بالمشاكل الجارية والرؤى الحديثة في مجال التخصص
 - 5.1تحديد المشكلات المهنية وإيجاد حلول لها
- 6.1 إتقان نطاق مناسب من المهارات المهنية المتخصصة واستخدام الوسائل التكنولوجية المناسبة بما يخدم ممارسته المهنية
 - 7. التوصل بفاعلية والقدرة على قيادة فرق العمل
 - 8 اتخاذ القرار في سياقات مهنية مختلفة
 - 9. 1 توظيف الموارد المتاحة بما يحقق أعلى استفادة والحفاظ عليها
- 1.10 إظهار الوعى بدوره في تنمية المجتمع والحفاظ على البيئة في ضوء المتغيرات العالمية والاقليمية
 - 1.11 التصرف بما يعكس الالتزام بالنزهة والمصداقية والالتزام بقواعد المهنة
 - 1.12 تنمية ذاته أكاديميا ومهنيا وقادرا على التعلم المستمر

- المعايير القياسية العامة

2-1 المعرفة والفهم:

بانتهاء دراسة برنامج الماجيستير يجب ان يكون الخريج على فهم ودراية بكل من:

- 2-1-1 النظريات والاساسيات المتعلقة بمجال التعلم وكذا في المجالات ذات العلاقة
 - 2-1-2 التأثير المتبادل بين الممارسة المهنية وانعكاسها على البيئة
 - 2-1-2 التطورات العلمية في مجال التخصص
 - 2-1-4 المبادئ الاخلاقية والقانونية للممارسة المهنية في مجال التخصص
 - 2-1-5 مبادئ واساسيات الجودة في الممارسة المهنية في مجال التخصص
 - 2-1-6 اساسيات واخلاقيات البحث العلمي

2-2 المهارات الذهنية:

بانتهاء دراسة برنامج الماجستير يجب ان يكون الخريج قادرا على:

- 2-2-1 تحليل وتقيم المعلومات في مجال التخصص والقياس عليها لحل المشاكل
 - 2-2-2 حل المشاكل المتخصصة مع عدم توافر بعض المعطيات
 - 2-2-3 الربط بين المعارف المختلفة لحل المشاكل المهنية
 - 2-2-4 اجراء دراسة بحثية او كتابة دراسة علمية منهجية حول مشكلة بحثية
 - 2-2- تقييم المخاطر في الممارسات المهنية في مجال التخصص
 - 2-2-6 التخطيط لتطوير الاداء في مجال التخصص
 - 2-2-7 اتخاذ القرارات المهنية في سياقات مهنية متنوعة

2-3 المهارات المهنية

بانتهاء دراسة برنامج الماجستير يجب ان يكون الخريج قادرا على:

- 2-3-1 اتقان المهارات المهنية الاساسية والحديثة في مجال التخصص
 - 2-3-2 كتابة وتقييم التقارير المهنية
 - 2-3-2 تقييم الطرق والادوات القائمة في مجال التخصص

2-4 المهارات العامة والمنتقلة

بانتهاء دراسة برنامج الماجستير يجب ان يكون الخريج قادرا على:

- 2-4-1 التواصل الفعال بأنواعة المختلفة
- 2-4-2 استخدام تكنولوجيا المعلومات بما يخدم الممارسة المهنية
 - 2-4-2 التقييم الذاتي وتحديد احتياجاته التعليمية
- 2-4-4 استخدام المصادر المختلفة لحصول على المعلومات والمعارف
 - 2-4-2 وضع قواعد ومؤشرات تقييم اداء الاخارين
 - 2-4-6 العمل في فريق سياقات كهنية مختلفة
 - 2-4-7 ادارة الوقت بكفاءة
 - 2-4-8 التعلم الذاتي والمستمر

أستاذ المادة :أ.د أمال منير رئيس مجلس القسم العلمي : . أ.د وفاء المسلمي

جامعة بنها كلية الطب البشري قسم الباثولوجيا (علم الأمراض)

توصيف مقرر هستوباثولوجيا ماجستير الأمراض الجلدية والتناسلية والذكورة

بيانات المقرر				
الفرقة / المستوى : ماجستير جزء أول	اسم المقرر : هستوباثولوجيا	الرمز الكودي :		
		DERM 604		
عدد الوحدات الدراسية: نظري: ساعة ونصف (معتمدة)		التخصص: ماجستير الأمراض		
	عملى: نصف ساعة معتمدة	الجلدية والتناسلية والذكورة		
	عملي. تصلف شاعه معتمده			

1.	Acquire the fundmental and advanced histopathological knowledge	1- هدف المقرر:			
	necessary in the practice of dermatology and andrology.				
2.	Employ the deep understanding of the histopathological changes and				
	pathogenesis of disease in promoting health, solving problems and				
	making scientific decisions in Dermatology and Andrology practice.				
3.	Evaluate risks imposed during professional practice and apply sterile,				
	safe techniques.				
4.	Write and evaluate histopathological reports				
5.	Understand the importance of clinic-pathological correlation in the				
	diagnosis of many diseases				
6.	Communicate with others in a manner reflecting commitment to ethics				
	and respect to all persons.				
7.	Maintain learning abilities.				
	ريس المقرر:	2- المستهدف من تد			
By t	the end of the course, the student should be able to:				
2.a.	1 Describe histology of normal skin, hair and nail and reproductive	أ- المعلومات			
syst	ems, and the histopathological changes which occur in different	والمفاهيم :			
	natological and andrological disorders.				
2.a.2 List and describe inflammatory reaction patterns of the skin and give					
exa	examples for each type.				
2.a.	2.a.3 Define granulomas and describe histopathological findings of				
gran	granulomatous skin diseases.				
2.a.	2.a.4 Mention the histopathological findings in different Vesiculobullous				
dise	eases.				
2.a.	2.a.5 Classify skin tumors and describe histopathological features of them.				
2.a.	2.a.6 Discuss histopathological features of male infertility-testicular tissue-				
	granulomatous orchitis-sertolli cell only syndrome.				
2.a.	2.a.7 Discuss Basics and advances in the field of histopathological staining,				
	immunohistochemistry and molecular studies of different dermatological, and				
and	rological disorders.				
. 2011(1	IOIOZICAI UISOIUCIS.				

2.b.1 Integrate the histopathological findings with the clinical data to find	ب- المهارات
out final diagnosis	الذهنية:
2.b.2 Differentiate between different skin diseases as regard the	الدهنية:
hisopathological findings.	
2.b.3 Employ the findings in testicular biopsy to decide to use assisted	
reproductive technique or not.	
2.c.1 Identify the appearance of normal skin under microscope.	جـ- المهارات المهنية الخاصة
2.c.1 Examine histopathological slides and make a clinicopathological	
correlation to diagnose the skin and andrological diseases studied.	المهنية الخاصة
2.c.2 Establish a final diagnosis / differential diagnosis of studied topics if	، . بالمقرر :
given a group of pathological findings.	بالمفرر:
2.c.3 Write and appraise full histopathological report	
2.d.1 Work in team as a member or leader with effective communication	د - المهارات
with all members.	د - المهارات العامة ·
2.d.2 Practice self-appraisal and improve his own practice	•
2.d.3 Learn independently and seek continuous learning

مقرر نظرى فى علاج الأمراض الجلدية والتناسلية بالأشعة والكهرباء الطبية والليزر والموجات فوق الصوتية

For Master degree in Dermatology & Andrology Academic Year 2013-2014

	 بيانات المقرر الرمز الكودي :
اسم المقرر: مقرر نظرى في علاج الأمراض	الرمز الكودي :
الجلدية والتناسلية بالأشعة والكهرباء الطبية والليزر المستوى الأول	(DERM 605)
والموجات فوق الصوتية	
عدد الوحدات الدراسية : نظري ساعة واحدة معتمدة	التخصص: Dermatology, :
	& Andrology
2.1. Understand the fundamental principles and recent advances in Laser,	2- هدف المقرر:
phototherapy cryosurgery and electrocautery and use these data to take scientific	
decisions and to promote health.	
2.2. Evaluate risks imposed during Laser therapy, phototherapy, electrocautery and	
cryocautery.	
2.3. Communicate effectively with respect to all persons.	
2.4. Keep on seeking knowledge and skills.	. 11 11 2
	3- المستهدف من تدريس المق
By the end of the course, the student should be able to:	
3.a.1 Identify the basic physical principles of Laser technology.	أ- المعلومات والمفاهيم :
3.a.2 Define the Laser skin interactions.	
3.a.3 List type of Laser to treat every skin disease.	
3.a.4 State the basics of photobiology and describe the pharmacology and	
pharmacokinetics of psoralens.	
3.a.5 Discuss mechanism of actions, indications, contraindications, possible side	
effects and precautions of phototherapy an Photochemotherapy	
3.a.6 Explain the mechanism of actions of electric cautary, cryocautary and	
photodynamic therapy	
3.a.7 Describe skin diseases that can be treated by laser and other physical	
dermatologic procedures	* • * * * * * * * * * * * * * * * * * *
3.b.1 Analyze the type of the disease, the associated systemic disorders and the	ب- المهارات الذهنية:
demographic characters to choose between phototherapy or photochemotherapy	
or photodynamic therapy	
3.b.2 Select the perfect type of LASERS to a given condition according to the disease and the present chromophore	
1	
3.b.3 Choose cryosurgery or electrosurgery according to the given skin lesion	

3.c.1 Change the laser type used in treatment of a given case to another type	جـ المهارات المهنية الخاصة بالمقرر:
according to the response and the deep awareness of the mechanism of action of	
different Lasers.	الخاصة بالمقرر:
3.c.2 Set a Laser or phototherapy treatment schedule to a given disease according to	
the given data.	
3.c.2 Manage the common side effects of phototherapy, photochemotherapy,	
photodynamic therapy, Laser, cryosurgery and electrosurgery.	
3.d.1. Use Information and Communications Technology.	د - المهارات العامة:
3.d.2. Present reports in seminars effectively.	. 30
3.d.3. Teach others and evaluate their performance.	
3.d.4. Assess himself and identify his personal learning needs.	
3.d.5. Use different sources for information and knowledge.	
3.d.6. Work coherently and successfully as a part of a team and team's leadership.	
3.d.7. Manage scientific meetings according to the available time.

توصيف مقرر الأمراض الجلدية For Master Degree in Dermatology & Andrology Academic Year 2013-2014

		1- بيانات المقرر
المستوى	اسم المقرر:	الرمز الكودي:
ماجيستير جزء ثاني	الأمراض الجلدية	(Derm 609)
4	عدد الوحدات الدراسية: نظري 5 عملي	التخصص:
	9 ساعات معتمدة	Dermatology & Andrology

2.1. Diagnose common skin problems.	2- هدف
2.2. Choose the suitable investigations to help and confirm the provisional	_
diagnosis.	المقرر:
2.3. Direct the patient to the most appropriate therapeutic option according to	المعرر .
the condition	
2.4. Upgrade his/her knowledge by continuous learning and reading the	
recent studies	
2.5. Upgrade his/her practice by continuous training on dermatological skills	
2.6. Serve the community and take part in solving common problems	
2.7. Use the available resources in the best way in order to achieve the highest	
benefit and to preserve these resources.	
2.8. Behave in a manner reflecting the commitment to integrity and	
credibility of the profession and the commitment to the rules of this sensitive	
specialty.	
2.9. Understand and to get the best of published scientific research and to do	
their own research.	

	ف من تدريس المقرر:	3- المستهد
3.a.1	Describe the normal development, structure and function of the human integumentary system on the macro and	-1
	microscopic levels.	المعلومات
3.a.2	Define primary and secondary skin lesions, common dermatologic and dermatopathologic terms.	المعلومات والمفاهيم
3.a.3	Discuss ethical guidelines for dermatology practice.	:
3.a.4	Illustrate the principals of diagnostic, therapeutic and preventive tools of various dermatological illnesses.	
3.a.5	Point out basics of molecular biology and genetic aspects of common dermatoses.	
3.a.6	Illustrate the pathogenesis of common skin diseases.	
3.a.7	Discuss common vaccines, topical and systemic drugs used in dermatology as regard indications, contraindications, mechanism of action, interactions, side effects and uses.	
3.a.8	Know basic knowledge of cosmetic and surgical dermatology and laser therapies.	
3.a.9	Explain the ethical and scientific principles of medical research.	

3.b.1	Interpret data collected from history taking, clinical and	ر ن
	histopathological examination and laboratory tests to diagnose different skin diseases.	
3.b.2	Analyze the available data to choose the suitable and cost	المهارات
	effective lab test for diagnosing skin diseases.	الذهنية:
3.b.3	Analyze the available data to choose the suitable therapeutic option for different dermatoses.	
3.b.4	Evaluate cases of infectious diseases and assess infectivity of these cases	
3.b.5	Create algorithms to approach different dermatoses.	
3.b.6	Analyse scientific issues and express the opinions based on scientific evidences and proofs .	
3.b.7	Evaluate the indications and the risk of any intervention (biopsy taking, medical treatment, physical treatment, cosmetic procedure or dermatologic surgery) according to the procedure and the general condition of the patient.	

3.c.1	Collect necessary data during history taking by asking focused questions to help the patient to recall all important data which	ج- المهارات
	may help in managing the case with complete respect.	ج- المهارات المهنية
3.c.2	Perform physical examination of skin, hair, nails and lymph nodes and discriminate between normal and abnormal findings.	الخاصة
3.c.3	Perform basic and some advanced diagnostic and therapeutic procedures with perfection of basic techniques such as biopsy taking, nail scraping, KOH staining, hair pull test and electrocautery.	بالمقرر:
3.c.4	Write medical reports about the cases with skin diseases including personal information, skin type, complaint, history of present illness, past and family history	
3.c.5	Use medical reports referred from colleagues	
3.c.6	Apply methods and tools existing in the area of Dermatology	
3.c.7	Apply sterile, safe techniques and infection control guidelines according to international principles during examination or application of any procedure to avoid transmission of infections	

3.d.1	Communicate effectively with colleages, patients and health care	- 7
	providers with care and respect.	المهارات
3.d.2	Use standard computer programs effectively in preparing research assignment and in demonstrating data in scientific symposium	المهارات العامة:
3.d.3	Enhance his/her lifelong learning skills by using the recent technological facilities	
3.d.4	Analyze own practical experience to recognize his/her strengths, deficiencies, and limits in knowledge and expertise.	
3.d.5	Work coherently and successfully as a part of a team to research and prepare a scientific topic or solve a problem.	
3.d.6	Use different sources of information to obtain data.	
3.d.7	Demonstrate respect to all patients irrespective of their socio-cultural or religious status and Conduct patient interview with patience, attentive listening and respect.	
3.d.8	Share in determination of standards for evaluation of performance of others (e.g. subordinates/ trainees etc) to improve practice.	
3.d.9	Organize and manage time to plan and implement efficient and effective modes of working.

	ى من تدريس المقرر:	3- المستهدف

3.a.1 **Identify** the normal structure, function, development and growth of the human reproductive system on the macro and microscopic levels.

_

المعلومات

3.a.2 **Discuss** physiology of erection and ejaculation and **list** the main mediators involved in the process of erection.

والمفاهيم

- 3.a.3 **Recognize** functional organization and hormonal control of testis and **list** steps of the processes of spermatogenesis and fertilization.
- 3.a.4 **Describe** etiology of male and female sexual dysfunction and male infertility and **explain** the possible pathogenesis
- **3.a.5 Outline** the principals of the common and advanced diagnostic and laboratory techniques necessary to diagnose the cause of male and female sexual dysfunction male infertility.
- 3.a.6 **Identify** the basis of assisted reproductive techniques and stem cell basics.
- 3.a.7 **List** the various therapeutic methods /alternatives used for managing sexual dysfunctions and male infertility: medical, surgical and psychological approaches.
- 3.a.8 **Outline** the principals of diagnostic, therapeutic and preventive tools of STDs.
- 3.a.9 **Mention** the basic ethical and medico legal principals relevant to andrology and venereology.
- 3.a.10 **Mention** the basic ethical and scientific principal of medical researches.

ب- المهارات	Analyze data collected from history taking, clinical examination to identify the problem, determine the risk factors and choose the suitable lab test or diagnostic technique	3.b.1
المهارات الذهنية:	required patients with sexual dysfunction or fertility problems	
	Interpret results of history taking, clinical examination, testing for nocturnal penile tumescence, Duplex sonography, Tests to evaluate afferent neural pathways of erection and laboratory tests to detect the etiology of sexual dysfunction and differentiate between its different causes.	3.b.2
	Interpret data collected from history taking, clinical and histopathological examination, semen analysis and laboratory tests to detect the etiology of fertility problem and differentiate between its different causes.	3.b.3
	Classify therapeutic options for different sexual dysfunction and infertility cases and Choose the suitable option according to the cause and the impact of the condition on patient's life and according to the general condition of the patient and the concomitant systemic diseases and drugs used.	3.b.4
	Differntiate sexually transmissible disease from common genital dermatoses and differentiate between common genital dermatoses according to the history, clinical findings and histopathological examination	3.b.5
	Analyze history, clinical and lab findings in a certain sexually transmissible disease and choose the appropriate treatment option for it.	3.b.6
	Evaluate researches or hypotheses related to Venereology and Andrology based upon scientific evidences and proofs and integrate their results in daily practice.	3.b.7

<u> </u>	
3.c.1 Take history by asking focused questions to allow the patient	
to talk freely about embarrassing problems.	-
3.c.2 Perform physical examination to genital skin, inguinal lymph nodes, sex organs and secondary sex characters efficiently and	المهارات
discriminate between normal and abnormal findings.	الممندة
3.c.3 Write medical reports about the sexual function, sexually	المهيي-
transmissible diseases and cases of infertility.	الخاصة
3.c.4 Diagnose cases of sexual dysfunction, infertility and STDs	
accurately depending on integrated patient data.	بالمقرر:
3.c.5 Apply sterile, safe techniques and infection control guidelines according to international principles during examination or application of any procedure to avoid transmission of infections.	
3.c.6 Perform basic diagnostic and therapeutic procedures with perfection such as collecting samples for lab testing, intracorporeal injections and podophylline application	
3.c.7 Manage cases of sexual dysfunction, infertility problems and STDs.	
3.c.8 Manage all andrological emergencies properly.	

3.d.1 **Communicate** effectively with colleages, patients and health care providers with care and respect.

– :

3.d.2 **Use** standard computer programs effectively in preparing research assignment or in demonstrating data in scientific Symposium

لمهارات

3.d.3 **Use** information technology to enhance his/her lifelong learning skills obtaining data .

العامة:

- 3.d.4 **Assess** self knowledge and identify personal learning needs.
- **3.d.5 Analyze** own practical experience to recognize his/her strengths, deficiencies, and limits in knowledge and expertise.
- 3.d.6 **Work** coherently and successfully as a part of a team to research and prepare a scientific topic or solve a problem.
- 3.d.7 **Demonstrate** respect to all patients irrespective of their sociocultural or religious status.
- 3.d.8 **Conduct** patient interview with patience, attentive listening and respect.
- 3.d.9 **Share** in determination of standards for evaluation of performance of others (e.g. subordinates/ trainees etc...) to improve practice.
- **3.d.10** Organize and manage time to plan and implement

efficient and effective modes of working.
